

# Meeting the Needs of All Math Students: Tompkins Seneca Tioga BOCES

Assessing Needs and Differentiating Instruction *An Educational Plus*

## Presented by: Sue O'Connell

Join us to explore quick techniques for assessing students' needs and effective instructional strategies for differentiating math lessons. This session includes lots of practical strategies that fit into your existing math program. Topics include ongoing assessment options, flexible grouping techniques, the effective use of guided math workshops to reteach or enhance skills/concepts, and guidelines for modifying math tasks for varied levels of students. This workshop explores the varied ways that teachers can assess students' needs, differentiate instruction, support varied learning styles, and modify math tasks in order to meet the needs of all learners in their classrooms. Guidelines for modifying math tasks will be shared.
